According to Section 3313.671, on the 15th day after school entrance it will be necessary to exclude all students from school who do not meet the above requirements.

Medical authorities and school educators urge that every child have a complete medical examination before entering school in order that defects, if present, may be corrected and the child be physically ready to accept all the advantages which education has to offer.

Since the school's nurse is required to check the records of all new entrants for compliance with immunization requirements, please have your physician complete the attached School Entrance Medical Record and return it no later than August 1st.

If you have any questions, please contact me directly or the building principal.

*NOTE: Exceptions are provided for under the law. This can be discussed with the school's nurse.
